

Aluminium Tread Bright provides enhanced slip resistance, making it an ideal choice for flooring, ramps and walkways in both commercial and industrial settings. The finish of the tread plate contributes to its durability, as it resists corrosion and wear over time. It is easy to handle and install, making it suitable for a wide range of applications.

| TREAD BRIGHT PLATE | GRADE |
|--|---------|
| TREAD BRIGHT 2438mm x 1219mm x 1.47mm | 1050H14 |
